

Barton 25mm (1") Stand up Blocks **# 25310, 25311 & 25312**

The Barton range of T track accessories is compatible with all types of 'T' Track ranging from 20mm ($\frac{3}{4}$ "), 25mm (1") to 32mm (1 $\frac{1}{4}$ "). Moulded nylon inserts for the 25mm (1") and 32mm (1 $\frac{1}{4}$ ") range stop metal to metal contact and ensure smooth gliding, especially so for the towable range of cars, providing cost effective adjustment from the cockpit.

Our range of 25mm (1") Stand up Blocks feature a stainless steel eye on the block which fits onto a stainless steel loop on the slider, through-bolted for strength. The moulded plastic spring/gaiter prevents the block tumbling or ropes snagging and adjustment is via a stainless steel plunger pin.

Three models are available:

#25310 – Size 3 stand up block
SWL 490kg (1080lbs) for yachts up to 7.6m (25ft)

#25311 – Size 5 stand up block
