

## Barton Floating Winch Handles

### Part #s 21033, 21034

The Barton floating winch handles are designed to fit International Star sockets found in all makes of winch and standard deck filler caps.

Barton floating handles feature a moulded body with an integral moulded handle shaft. The Locking mechanism has a positive, easy action thumb switch.

Intended for light use only, these have a working load of 40kg (88lbs)

#21033 - Length = 290mm (10")
