

'K' Cam Pillar Fairleads

You will notice a continuous 316 stainless steel hoop fitted into the base which allows for wear free, smooth adjustment of the control line from any angle before being cleated into the K Cam.

Available to fit all three K Cam sizes for lines 5mm (3/16") to 14mm (9/16") and loads from 190kg (420 lbs) to 260kg (575lbs).
