

Land Sailing Kits Blokart – Odyssey – Manta

An all-in-one replacement hardware and line kits for Blokart and Manta/Odyssey class landsailing vessels.

Each kit is designed to work with a particular brand and class of landsailing vessel. Kits are class legal for that particular classification of landsailing vessel.

Barton landsailing kits all include the popular Barton Ratchet Block (P/N 90500). A superiorly designed Ratchet style block that allows the sailor to have control of the mainsheet line and not have to struggle with pulling tension. Included with the Ratchet block is a loaded spring to hold the ratchet block at the best possible angle and upright.
