

Size O Cheek Blocks

Series O Cheek Blocks are ideal for use on dinghies and dayboats. Featuring both plain bearing and ball bearing options, this new design is perfect for horizontal or vertical flush mounting on the deck, mast or boom.

The two fixing holes secure the unit by means of screws or bolts and the maximum line diameter is 6mm (1/4").

Part No:

N00160 - Plain bearing

N10160 - Ball bearing
