

Ball Bearing Traveller Spares kits

Barton Marine introduce a spares pack for each of our range of ball bearing traveller cars. Each kit comprises new black nylon traveller end caps, new end cap fixing screws and a new set of Delrin ball bearings.

#18210
To Fit:
#18101
#18105

It's worth inspecting the condition of the end caps which hold the ball bearings within the ball race, these can be damaged by crash gybes and by salt degradation over time. Any damage here will result in ball bearings being lost and failure of the traveller car.
