

New Barton Quick Cleat for Inflatables - 60021

Quick Cleat 60021 – No Knots!

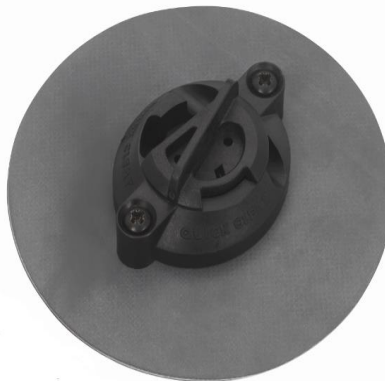

The perfect solution for securing ropes onto inflatables, featuring a Quick Cleat mounted onto a Hypalon™ patch. The unit can be glued into position, and using recommended adhesive, has a working load of 30kg (66lbs).

Ideal for RIBs, paddleboards & inflatable Kayaks where an easy, quick and simple solution is required for rapid tying of ropes horizontally or vertically.

Quick Cleat's low profile reduces snags and completely contains the line to prevent accidental release. Adjustment can be made in one direction and fully locks in the other until released by turning the centre lever.

Use for painters, anchors, fenders, covers, tie downs, fishing gear, dock lines, testing equipment.

- Working load 30kgs (66lbs)
- Holds up to 6mm (1/4") line
- Low profile construction
- Patch diameter 100mm (4")
- Height 27mm (1 1/16")
- Adhesive recommendations and instructions provided on package

Easy, Quick, Simple
