

## BARTON MARINE DISPLAY BOATS

Barton's exhibition display boat proves to be a great interactive demonstration piece which draws customer attention and sells product at events, shows and in retail venues.

This is the ultimate selling tool.

**Based on requests and feedback from dealers around the world we have designed a model that responds to their key selling points:**

- **Compact lightweight unit for ease of shipping**
- **Cost effective build price**
- **Supported price from manufacturer**
- **Look and feel of the original Barton Display Boat**

### Display Boat Features

Mainsheet System  
Vang/Kicking Strap  
Furling System

Barton Display Boats promote customer experience and understanding of Barton products, how they work and can be used on their own yacht. The Display can be customised by distributors or dealers for the marketplace they support. Products on boats can be changed to suite requirements. Display boat costs will reflect the equipment desired. Some conditions apply.
