

**STAND UP BLOCK BASE  
60330 60331 & 60332**

**60330**

**60330 Small Stand Up Base**

The Small Stand Up Base is manufactured from 316 Stainless Steel with a bolted U bolt for added strength. It is mounted on a plastic deck plate.

Designed to work with blocks from size 0 through to size 3 and can be used with a stand up springs or rubber boots. Designed to work with a wide range of our blocks to suit a range of applications. The U is fixed so if a swivel is needed, this is done by block selection. Ideal for lashing down equipment.

**60331**

**60331 60332 Large Stand Up Base**

The Large Stand Up Base is manufactured from a marine grade aluminium base which is Spectro anodised with a 316 Stainless Steel with a bolted U bolt for added strength. The aluminium deck plate is fixed directly to the deck with suitable countersunk fasteners. Also available in black anodised finish.

Designed to work with blocks from size 5 through to size 7 and can be used with stand up springs or rubber boots. Designed to work with a wide range of our blocks to suit a range of applications. The U is fixed so if a swivel is needed, this is done by block selection. Ideal for lashing down equipment.
